

HOSPITAL CASH BACK PLAN

Get a lump sum and provide for you and your family's living expenses in the event of hospitalisation.

Being away from home and loved ones due to hospitalisation can be an emotional time and bring unforeseen extra financial burden to you and your family.

We know that you want peace of mind and financial freedom that is why with our Hospital Cash Back Plan you can get money to cover day-to-day expenses such as transportation, groceries, bills and any shortfall in your income that occurred while you were hospitalised so you can focus on your recovery and not your finances.

The Hospital Cash Back Plan is not a medical aid scheme and cover is not a substitute of a medical aid scheme, but the money you receive can help with the stress of having no income while hospitalised.

Optional Benefit

We know that the cost of living only ever increases, which is why we offer you the option of an Annual Benefit Increase (ABI). You can choose to increase your Daily Benefit Amount by 5% each year.

- Mr X buys the Hospital Cash Back Plan with a Daily Benefit Amount of M1,000. He chooses to include an ABI of 5% per year in this policy. After 10 years of having this policy, his Daily Benefit Amount will be M1,551.
- Mr Y buys the Hospital Cash Back Plan with a Daily Benefit Amount of M1,000. He chooses not to include an ABI on his policy. After 10 years of having the policy, his Daily Benefit Amount will be M1,000.

How it works

- The Daily Benefit Amount is paid per full day in hospital subject to a maximum of 21 days per claim.
- The Daily Benefit Amount is paid after discharge, or after 21 days if still in hospital.
- If still in hospital after 21 days, you get an additional 5 times the Daily Benefit Amount.
- Maximum of 105 days covered per member covered for the duration of the policy.
- For pregnancy related claims - maximum benefit payable is 5 times the Daily Benefit Amount and thereafter there will be no additional lump sum payable.

EXAMPLE

Mrs X took out the Hospital Cash Back Plan with a M200 a day benefit.

- She is hospitalised for a heart attack and spends 30 days in the hospital.
- The maximum days the policy pays for the claim is 21 days. An additional payment of 5 times the Daily Benefit Amount is also paid as the maximum period is reached.
- She will receive M5 200 as a benefit amount.
- The remaining days that Mrs X can still claim for is 84 days over the rest of the policy duration.

EXAMPLE

Assume the same example involving Mrs X as before.

- The same hospital stay happens except that she is in ICU for this period.
- She will receive double the benefit amount which is M10 400.
- The remaining days that she can still claim for is still 84 days for the rest of the policy duration.

Each life assured is covered for 105 days of hospital stay.

This means that each life assured can claim as many times as needed subject to the maximum limit of 105 days.

EXAMPLE

Mr X purchased the Hospital Cash Back Plan with a M100 a day benefit.

- He is hospitalised for an appendectomy and was in hospital for 4 days.
- He will receive M400 as a benefit amount.
- The remaining days that Mr X can still claim for is 101 days over the rest of the life of the policy.
- He later claims for an unrelated hospital stay of 5 days.
- He will receive M500 as a benefit amount.
- The remaining days that Mr X can still claim for is 96 days over the rest of the life of the policy.

If discharged from hospital and re-admitted within 10 days, for a related condition, the claim will continue i.e. the 3 day minimum stay will be waived.

EXAMPLE

Mr K purchased the Hospital Cash Back Plan with a M500 a day benefit.

- He is hospitalised after a traffic accident and was in hospital for 10 days with the first 4 days in ICU.
- He will receive M7,000 as a benefit amount.
- The remaining days that Mr K can still claim for is 95 days over the rest of the life of the policy.

An additional lump sum of 5 times the Daily Benefit Amount is payable if an insured person is still in hospital on day 21 i.e. benefit payable is 26 times daily benefit.

If an insured person is in ICU on day 21, they will receive an additional 10 times the Daily Benefit Amount.
